

## soluSOP®52 organic

### Sulphate of potash

PFC 1(C)(I)(a)(i)  
MINERAL FERTILISER K<sub>2</sub>O (SO<sub>3</sub>) 52,5 (45)

#### Declared nutrient contents by mass

- 52.5 % K<sub>2</sub>O water soluble potassium oxide (= 43.6 % K)
- 45 % SO<sub>3</sub> water soluble sulphur trioxide (= 18 % S)

Chemical Composition	w	typical
• Potassium Sulphate (K <sub>2</sub> SO <sub>4</sub> )	[%]	≥ 99
• Others (Na, Ca, Mg)	[%]	0.4
• Chloride, as Cl	[%]	0.15
• Moisture	[%]	0.1
• H <sub>2</sub> O-Insolubles	[%]	0.05

Granulometry	w	typical
• < 1 mm	[%]	98
• d <sub>50</sub> [mm]		0.15

#### Physical properties

		Method
• Bulk density	≈ 1550 kg/m <sup>3</sup>	
• Bulk Density (packed)	≈ 1750 kg/m <sup>3</sup>	
• Angle of Repose	≈ 32 °	
• Solubility in water	10 % K <sub>2</sub> SO <sub>4</sub>	at 20 °C
• pH	6 – 8	

#### Storage

- Keep in a dry place and protect from moisture.

#### Application

- soluSOP®52 organic is made from crude salt of natural origin and is permitted for use in organic farming according to the Regulations (EU) 2018/848 and (EU) 2021/1165.
